Our mission is to provide every child with a quality education

May 22, 2008

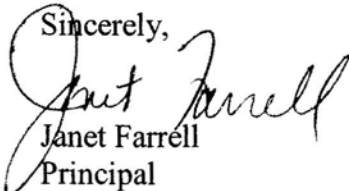

Dear Mr. Chernoff,

I would like to thank you, CBS Radio, and WFAN for partnering with our school in the Adopt-A-School Program. I know the program at CBS Radio has officially come to an end; however, we can not express our gratitude enough for all that this partnership has done for P.S. 166.

Over the years our students have been able to attend Mets games at Shea Stadium, meet with Mr. Met and members of the CBS Radio family, and see their school name flashed across the electronic billboard. Members of your staff have participated in Career Day, partnered with classes, have read to our students on Read Aloud Day, and have volunteered to assist at Carnival. We have even been lucky to have you as a principal on Principal for a Day. At past graduations students were surprised with an audio tape presentation congratulating them upon their milestone in their educational road. Monies raised over the years have helped buy gym equipment for students to use during recess. In addition to monies raised over the years a \$10,000.00 donation was made to help upgrade our school library.

We hope the friendship and partnership that has evolved over the years will not end and that CBS Radio and WFAN will continue to work together to bridge the school, student, parent, community bond that has formed.

Sincerely,

Janet Farrell
Principal
